

CENTAURION LABS

Automate Your Edge

Transforming Trading Strategies into Precision Automation

Turn your trading strategy into a precision engine. We provide the **tools** and **expertise** to automate your **edge**. Benefit from institutional-grade foundations designed for **reliability** and **speed**. Automate without compromising on your strategy.

Institutional-Grade Foundations

Industry Expertise

Designed by professionals with experience at market leaders.

We adhere to rigorous technical standards.

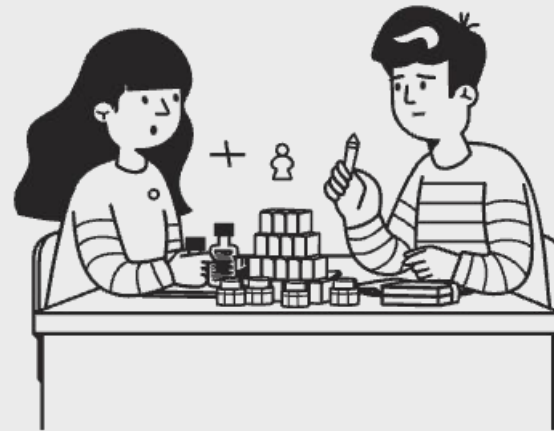

No "hobbyist code" here.

Seamless Integration

Focus on reliability, speed, and seamless integration.

Experience dependable performance.

Lightning fast responsiveness on feedback loops.

Your Strategy, Your Rules

1

Strategy Review

2

Custom Development

3

Testing & Delivery

We don't sell pre-built systems or black-box algorithms. **Your logic drives every trade.** Experience a clear process with weekly updates. Your feedback is integrated throughout the development lifecycle.

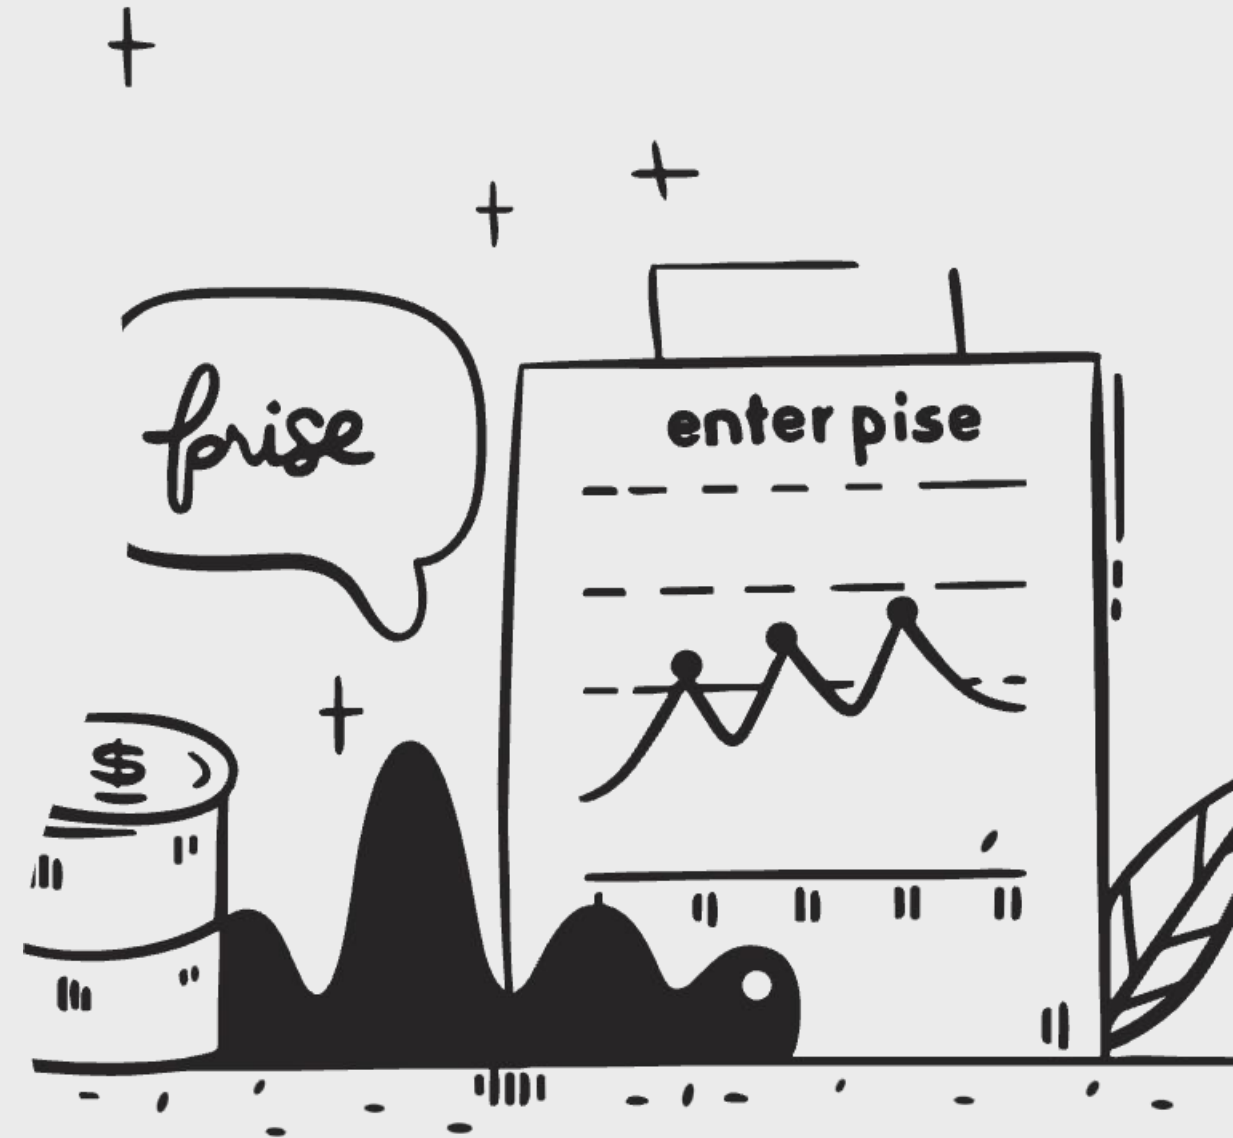

Zero-Risk Start

1 Free Strategy Audit

We analyze your idea's viability before commitment. Understand your strategy's potential.

2 Beta Testing Phase

We fix bugs for free until you're confident. Launch with complete confidence.

Flexible Pricing

Fixed Fee

Transparent upfront quote.

Pay-as-You-Profit

Small % of your sales profits.

Choose the pricing that works for you. Fixed fee provides cost certainty. Pay-as-you-profit aligns our incentives with your success.

Ideal for Traders Who...

Have a clear strategy but lack technical skills.

Want to automate discipline, removing emotional trading.

Value transparency over empty promises.

What We Don't Do

Reuse your strategy – [your IP stays yours](#).

- Lock you into subscriptions for basic fixes.
- Sell “guaranteed profit” scams.

We prioritize integrity and client control. Your strategy is safe with us.

Launch Offer

10%

Discount

10% Discount on your first EA.

Free

Audit

Free Strategy Audit

Founding Clients receive a free strategy audit. Benefit from priority access to future tools.

Let's talk.
